

Citro₂-Kleen[®]

Multi-Surface Cleaner, Degreaser & Stain Remover

Oxygen & Citrus Technology

Description

Citro₂-Kleen is a concentrated, environmentally friendly, biodegradable, multi-surface cleaner that utilizes oxygen and hydrogen as well as powerful citrus extract to provide the next generation in cleaning technology. This product is extremely effective when used with heated, deionized water. This product is designed for high-performance building restoration and preservation applications.

REVOLUTIONIZING THE BUILDING MAINTENANCE INDUSTRY

Specifications

Advantages

- Aggressive stain-fighting capabilities
- Oxygen fights stains caused by biological contamination, mold, black and green algae
- 100% natural and organic
- Citrus extract fights oil and grease stains
- Perfect for multi-story, highly populated restoration projects
- Pleasant, natural citrus fragrance improves work environment
- Powerful foaming action on contact
- Quickly removes malodors
- Biodegradable
- Concentrated formula has very low level of toxicity
- Oxidizes surfaces
- Can be used within a pressure washer
- Environmentally friendly
- Safe and easy to use
- Contains no phosphates or petroleum distillates

- Product is non-flammable and non-combustible
- Use of solution does not contribute to smog formation or poor indoor air quality
- Leaves little to no residue

Intended Surfaces

For use on stone, metal, glass and painted surfaces.

Coverage Rates

250 to 10,000 sq. ft. per gal. depending on dilution rate

Dilution

Product can be diluted to any concentration needed.

Heavy Duty – This product may be used undiluted.

Medium Duty – Dilute 35-65% with water.

Light Duty – Dilute 10-35% with water.

Necessary Equipment

- Protective gear
- Running water or deionized water tank
- Chemical sprayer
- Pressure washer (optional)
- Stone brush (optional)

Surface Preparation

Remove as much surface contamination as possible with heated, deionized water prior to using Citro₂-Kleen.

Application

This product can be used with a sprayer or any chemical injection applicator. Using a pump sprayer, apply Citro₂-Kleen to the surface using a side to side wetting pattern starting at the bottom and working upward. Make sure to fully and evenly soak the entire surface. Allow the product to soak on the surface

as long as possible without drying. Reapply the product if areas become dry. Rinse using a pressure washer or water hose. Use heated, deionized water for superior performance. Remove all product from the surface. If heavy soils are present and it appears necessary, use a strong, short-bristled brush to agitate the surface.

If necessary, apply a second or third treatment to the surface and repeat the process as previously described. When finished, make sure to rinse the surface multiple times to ensure no residue is left behind – especially when a water repellent is to be applied afterwards.

This product will not harm the surface and can be applied as many times as needed. The product will work without the use of deionized water; however, it is recommended for superior performance.

Situations including various stone types or different natured stains may require multiple products. Presto's stone cleaning line includes:

- **Stone Restore® HD**
For difficult to remove mineral stains caused by efflorescence, rusting, red clay, iron, and more
- **Stone Restore® NC**
For general cleaning of sensitive stone surfaces that require a neutral cleaner
- **Stone Restore® A+**
For heavy stains caused by oil, grease, grime and environmental pollution

Sq. ft. is per gallon of product for one coat of material
 H - Horizontal Surfaces
 V - Vertical Surfaces
 k - Thousand

- **Stone Restore® CT**
A multi-purpose stone cleaner that removes a variety of stains from all types of stone materials
- **Stone Restore® CB²**
For difficult to remove biological stains
- **Stone Restore® PS**
For stubborn surface contamination on all types of polished stone

For more product information, refer to the stone stain compatibility charts on Presto's website.

Recommendations

We recommend the use of one of Presto's stone protective treatments to protect the newly restored surface for years:

- **Leach Stop®** – Mineral Leaching Mitigation Treatment™
- **ElaSticone®** – Silicone sealer for concrete, masonry and stone surfaces
- **ElaSticone® GSX** – Silicone with graffiti protection for concrete, masonry and stone surfaces
- **Protect-A-Stone®** – High-performance oil protection for stone surfaces
- **Stone Guardian®** – UV-resistant, breathable protection for superior water, oil and stain resistance
- **ReJuviSeal®** – Rejuvenating oil protection for stone surfaces
- **Stone Enhancer® Series** – Film-forming, acrylic-based protection leaves for stone surfaces

Warranties

The information provided by Presto for the safe and effective use of this product, and all of our products, is believed to be good and accurate. However, due to the many different possible applications of this product, careful considerations should be made when selecting its suitability for each surface. The information provided should never be substituted for individual testing to ensure the product's compatibility with each surface intended for use. The purchaser shall assume all responsibility for determining the suitability of this product. When used as intended, this product will perform as stated. No other warranty can be made for this product, verbally or written.

Presto warrants this product to be free from defects. In the event this product is found to

be defective, we will provide a sufficient amount of product to replace the defective product.

Green Synergy Product

Presto's Green Synergy Products™ work synergistically with each other to protect all surfaces of a building without damaging Presto's protective coatings present on those surfaces. These products are designed to be the longest lasting protection available for preserving the appearance of buildings.

Green Synergy Products are designed so that they will not easily break down and leach degrading materials onto adjacent surfaces.

Green Synergy Products work to save you money. Listed on our website is a 10-year Return on Investment graph that depicts the long-term cost savings associated with using Presto's Green Synergy Products compared to competitive options that utilize older technology. More information can be found at www.IsYourBuildingGreen.com

About Presto

Presto Restoration Products was created to implement higher performing technology, safer practices and products that provide a better return on investment to the building restoration and maintenance industry. Our expertise is researching and developing products and techniques to restore and preserve the magnificence of high-rise buildings built with architectural glass, metal and stone surfaces.

Presto strives to design products that comply with the Green Building Standards Act, which promotes better environmental standards for the construction, rehabilitation and maintenance of buildings:

- Improve energy efficiency and increase generation of energy through renewable and clean energy technologies

- Increase the demand for environmentally preferable building materials, finishes and furnishings
- Improve the environment by decreasing the discharge of pollutants from buildings
- Create industry and public awareness of new technologies that can improve the quality of life for building occupants
- Improve the health and productivity of building occupants by meeting advanced criteria for indoor environmental quality

At Presto, we have mastered the art of balancing quality and compliance through our dedication to Building Product Synergy™ for a safer, greener environment.

Presto continues to perform extensive research, development and testing on various methods of commercial exterior restoration and preservation.
