

Sticker Shocker®

Hard Surface Sticky Residue Remover

Sticker Shocker is a citrus-based sticky residue remover designed for use on multiple surfaces.

Description

This product, made from natural citrus extracts, removes caulking, sticker adhesives, waterproofing overspray, tar, elastomeric coating or paints, asphalt, gum and other sticky residues from metal, glass, anodized aluminum and polished or unpolished stone surfaces. This product is designed for high-performance building restoration and preservation applications.

REVOLUTIONIZING THE BUILDING MAINTENANCE INDUSTRY

Specifications

Advantages

- Great for construction clean-up projects
- Designed for industrial applications
- Biodegradable
- Environmentally friendly
- Contains no caustic agents, acids, petroleum distillates or chlorinated aromatic solvents
- Natural citrus solvent produces safe, environmentally friendly conditions
- Pleasant orange fragrance
- Loosens oil and grease
- Easy to use

Intended Use

This product is formulated for use on glass, metal, stone and painted surfaces.

Surface Preparation

For fastest results, remove as much of the sticky substance as possible prior to use. Always test in a small, inconspicuous area.

Application

Apply Sticker Shocker with any non-abrasive pad or a rag, and agitate in a circular motion until the stain is removed. A white, synthetic non-abrasive pad can also be used for stubborn stains. Wipe away any residue on the surface.

Precautions

Product may negatively affect plastic surfaces. This product will break down caulking. If caulking is on a porous material, such as concrete, this product will break down the caulking and allow it to absorb into the porous surface, which may cause staining.

Warranties

The information provided by Presto for the safe and effective use of this product, and all of our products, is believed to be good and accurate. However, due to the many different possible

applications of this product, careful considerations should be made when selecting its suitability for each surface.

The information provided should never be substituted for individual testing to ensure the product's compatibility with each surface intended for use. The purchaser shall assume all responsibility for determining the suitability of this product. When used as intended, this product will perform as stated. No other warranty can be made for this product, verbally or written.

Presto warrants this product to be free from defects. In the event this product is found to be defective, we will provide a sufficient amount of product to replace the defective product.

Green Synergy Product

Presto's Green Synergy Products™ work synergistically with each other to protect all

surfaces of a building without damaging Presto's protective coatings present on those surfaces. These products are designed to be the longest lasting protection available for preserving the appearance of buildings.

Green Synergy Products are designed so that they will not easily break down and leach degrading materials onto adjacent surfaces.

Green Synergy Products work to save you money. Listed on our website is a 10-year Return on Investment graph that depicts the long-term cost savings associated with using Presto's Green Synergy Products compared to competitive options that utilize older technology. About Presto

Presto Restoration Products was created to implement higher performing technology, safer practices and products that provide a better return on investment to the building restoration and maintenance industry. Our expertise is researching and developing products and techniques to restore and preserve the magnificence of high-rise buildings built with architectural glass, metal and stone surfaces.

Presto strives to design products that comply with the Green Building Standards Act, which promotes better environmental standards for the construction, rehabilitation and maintenance of buildings:

- Improve energy efficiency and increase generation of energy through renewable and clean energy technologies
- Increase the demand for environmentally preferable building materials, finishes and furnishings
- Improve the environment by decreasing the discharge of pollutants from buildings
- Create industry and public awareness of new technologies that can improve the quality of life for building occupants
- Improve the health and productivity of building occupants by meeting advanced criteria for indoor environmental quality

At Presto, we have mastered the art of balancing quality and compliance through our dedication to Building Product Synergy™ for a safer, greener environment.

Presto continues to perform extensive research, development and testing on various methods of commercial exterior restoration and preservation.
