

Stone Guardian®

Water, Oil & Stain Repellant

Stone Guardian is a deep-penetrating water, oil and stain repellant for concrete and stone with superior surface protection. This product is designed for high-performance building restoration and preservation applications.

Description

This product is designed to penetrate the surface to create a long-lasting repellency to oil, water and stains including graffiti. This treatment will help to deter unsightly stains caused by mold and mildew as it prevents water penetration. This product is specifically designed for instances when penetration is needed in addition to superior surface protection.

REVOLUTIONIZING THE BUILDING MAINTENANCE INDUSTRY

Specifications

Advantages

- Deep penetrating action
- Superior surface protection
- Graffiti protection
- Fast drying; dries clear
- Low VOC content
- Great coverage rates
- Low odor
- Suitable for interior use
- Safe to use on most stone without discoloration
- Won't fade, crack or peel
- Provides long-term savings
- Cleans substrate easily
- Keeps surfaces looking new

- Creates a slip free surface
- UV- and heat-resistant
- Long-lasting protection
- Easy to use

Limitations

Will not bridge gaps in brick and block masonry. Not suitable for below-grade use, asphalt surfaces.

Horizontal or Vertical

Can be used on both horizontal and vertical surfaces.

Intended Surfaces

Designed for concrete, masonry and most stone surfaces.

Surface Preparation

Complete all caulking and surrounding construction substrate applications prior to using this product. Newly installed stone or grout must be allowed to cure before application. Protect against personal contact with this and all chemical products.

Prior to the application of this product, ensure the stone is completely clean and free from all dirt, staining and biological growth using any of Presto's stone cleaning products. Make sure to thoroughly rinse the material to ensure no product is left behind on the surface prior to sealing.

Any cleaning product left on the surface can interfere with the protective coating. Never apply to a damp or wet surface. Do not apply at below freezing temperatures. Protect any unintended areas.

Application

Use a low-pressure sprayer, roller, brush, sponge or lambs wool applicator. Product may also be back rolled. Do not dilute; apply full strength. Apply product to create an even coat on the surface. Allow product to saturate surface. Do not allow product to pool on the surface and dry, or protection will be uneven and a residue may form. Remove excess material with a rag or towel.

A second coat may be needed for porous, absorbent surfaces or for superior protection. Subsequent coats should be applied in the same manner as the first while the initial application is drying. Never apply a second coat if two coats were not tested and approved prior to use.

Protection will begin immediately after sealant dries on the surface. Cure time for maximum water and stain protection is 24-72 hours.

Stone Guardian® Suitability Sheet

Substrate	Type	Polished	Rough	H	V	Coverage Rates
Architectural Materials	Concrete	Yes	Yes	Yes	Yes (NV)	150 to 250 sq. ft.

Sq. ft. is per gallon of product for one coat of material

H - Horizontal Surfaces

V - Vertical Surfaces

Yes* - Yes, but Presto has other products in its line better suited for this application.

NV - Not suitable on Vertical surfaces only if flush-mounted windows are present.

Protect surface from contact with water for at least 48 hours. Application rates, concentration, temperature and humidity can impact dry and cure time. Use towels or rags to polish the surface.

For parking garages: This product can be used after an initial deep-cleaning to repel water, oil and stains from the surface that will protect concrete from vehicle stains, such as motor oil and transmission fluid. Stone Guardian enables concrete surfaces to hold their repellency even after regular cleaning.

In many instances, a combination of different stone cleaning products is necessary for various stone surfaces depending on their level and type of staining. Presto offers a complete line of stone cleaning products for all situations, including:

- **Stone Restore® HD**
For difficult to remove mineral stains caused by efflorescence, rusting, red clay, iron, and more
- **Stone Restore® NC**
For general cleaning of sensitive stone surfaces that require a neutral cleaner
- **Stone Restore® A+**
For heavy stains caused by oil, grease, grime and environmental pollution
- **Stone Restore® CT**
A citrus multi-purpose stone cleaner that removes oil and a variety of stains
- **Stone Restore® CB²**
For difficult to remove biological stains

- **Stone Restore® PS**
For stubborn surface contamination on all types of polished stone

For more product information, refer to the stone stain compatibility charts on Presto's website.

Stain & Product Effectiveness	
Dust & Dirt	Yes
Mildew	Yes
Mold	Yes
Algae	Yes
Soap Scum	Yes
Exhaust	Yes
Efflorescence	No
Mineral Deposits	No
Rust	No
Red Clay	No
Caulking Residue	Yes
Waterproofing Leaching	Yes
Oil	Yes
Grease	Yes
Food Stains	Yes

Cleanup

Clean tools and equipment with water. In the event Stone Guardian is allowed to come in contact with adjacent surfaces, dries and is difficult to remove, use one of the following surface restoration products:

- **EnviRestore®** Glass Stain Remover
- **EnviRestore®** Metal Stain Remover
- **Stone Restore® PS** Polished Stone Stain Remover Cream

Protected Surface

Maintenance Instructions

Pressure clean surfaces as needed.

For exterior vertical surfaces on a building that is being properly cleaned using Presto products, we recommend cleaning the surface every 2-3 years to retain a clean appearance.

Warranties

The information provided by Presto for the safe and effective use of this product, and all of our products, is believed to be good and accurate. However, due to the many different possible applications of this product, careful considerations should be made when selecting its suitability for each surface. The information provided should never be substituted for individual testing to ensure the product's compatibility with each surface intended for use. The purchaser shall assume all responsibility for determining the suitability of this product. When used as intended, this product will perform as stated.

No other warranty can be made for this product, verbally or written.

Presto warrants this product to be free from defects. In the event this product is found to be defective, we will provide a sufficient amount of product to replace the defective product.

Green Synergy Product

Presto's Green Synergy Products™ work synergistically with each other to protect all surfaces of a building without damaging Presto's protective coatings present on those surfaces. These products are designed to be the longest lasting protection available for preserving the appearance of buildings.

Green Synergy Products are designed so that they will not easily break down and leach degrading materials onto adjacent surfaces.

Green Synergy Products work to save you money. Listed on our website is a 10-year Return on Investment graph that depicts the long-term cost savings associated with using

Presto's Green Synergy Products compared to competitive options that utilize older technology. More information can be found at www.IsYourBuildingGreen.com

About Presto

Presto Restoration Products was created to implement higher performing technology, safer practices and products that provide a better return on investment to the building restoration and maintenance industry. Our expertise is researching and developing products and techniques to restore and preserve the magnificence of high-rise buildings built with architectural glass, metal and stone surfaces.

Presto strives to design products that comply with the Green Building Standards Act, which promotes better environmental standards for the construction, rehabilitation and maintenance of buildings:

- Improve energy efficiency and increase generation of energy through renewable and clean energy technologies
- Increase the demand for environmentally preferable building materials, finishes and furnishings
- Improve the environment by decreasing the discharge of pollutants from buildings
- Create industry and public awareness of new technologies that can improve the quality of life for building occupants
- Improve the health and productivity of building occupants by meeting advanced criteria for indoor environmental quality

At Presto, we have mastered the art of balancing quality and compliance through our dedication to Building Product Synergy™ for a safer, greener environment.

Presto continues to perform extensive research, development and testing on various methods of commercial exterior restoration and preservation.
